

Campbell Position on Cage-free Eggs

Campbell is committed to the humane treatment of animals. Animal welfare is a key part of our vision for a sustainable supply chain and is integral to our Supplier Code of Conduct. Campbell suppliers are required to implement humane procedures to prevent the mistreatment of animals at all times, including how they are raised, cared for, transported, and processed.

As we continue to advance our work with suppliers in responsible sourcing, Campbell is developing plans to transition to exclusive use of cage-free eggs in its supply chain. With our suppliers' engagement, we intend to reach that goal no later than 2025. Campbell will continue to favor suppliers that supply eggs in a timely and cost effective manner from a cage-free environment, in addition to those suppliers that can provide audit and tracking reports for sourcing cage-free eggs.
